

ParFit™ Hydraulic Elements

Customer Value Proposition:

The competitively priced ParFit™ hydraulic filters are interchangeable with OEM and aftermarket filters to allow users to acquire all their replacement filters from one quality source. Racor ParFit™ hydraulic replacement filters conform to all the same rigorous tests as the standard replacement filters.

In addition to price and quality, the range of interchangeable filters available is key to a successful program for the user. Parker has worked diligently over the years to develop a range of filters that meet this challenge.

Problem:

Over 75% of all system failures are a direct result of contamination!

The cost due to contamination is staggering, resulting from:

- Loss of production (downtime)
- Component replacement costs
- Frequent fluid replacement
- Costly disposal
- Increased overall maintenance costs
- Increased scrap rate

Solution:

Racor ParFit™ hydraulic replacement filters were designed to filter contaminants in hydraulic fluid efficiently.

ENGINEERING YOUR SUCCESS.
